# Genuine Textiles Workshop System

Questions and confirmations for the owner | October 2026 | Updated 30/10/2026

While building the system we used your questionnaire and your sample invoices, receipts, delivery notes, quotations and proformas. Where you had not given an answer, we made a sensible working choice so you can see how the system will behave. This document lists those choices and the questions we still need you to answer.

**How to answer.** Part 1 has open questions: please write your answer in the box. Part 2 lists rules we have already set up: tick Yes if it matches how you work, or tick No and write what should change. Part 3 lists information we need you to send. You do not have to do everything at once: questions marked Soon change how we build the next screens, and those marked Before go-live must be settled before 01/01/2027.

**What is new in this update:** items marked **NEW** cover ready-made garments in stock and counter sales, expenses, payment vouchers, the cash book, the dashboard, the new reports, employees and wages, the **fabric calculator** (questions 34 to 38 and rule 36), messages, posters and forgotten passwords (questions 39 to 43), and now **campaigns, lead sources and sales targets** (questions 44 to 49), and now **branches and locations** (question 50). Questions 8, 9, 10, 11 and 20 have also been extended.

## Part 1: Questions we need you to answer

| # | Orders and production | Your answer |
|---|---|---|
| 1 | **Order steps.** You listed: Quotation, Confirmed, Deposit paid, Cutting, Finishing, Dispatched, Delivered. The system now shows: Received, Deposit confirmed, Cutting, Sewing, Finishing and quality check, Ready for delivery, Delivered. Which steps does your workshop really follow? Should Sewing be a separate step? Do knitting and embroidery need their own steps?<br>Ref: A-02, A-57 \| Priority: Soon | |
| 2 | **Last numbers used.** We will continue from invoice 644, receipt 2073, delivery note 2055, quotation 098 and proforma 096. Are these the latest? Do you number orders on paper today? If yes, what was the last order number?<br>Ref: A-16, A-58 \| Priority: Soon | |
| 3 | **Cancelling an order after cutting has started.** What should happen to the deposit and to the work already done (keep the deposit, charge for work done, refund)? Who decides?<br>Ref: A-62 \| Priority: Soon | |
| 4 | **Changing a confirmed order.** If a customer changes quantity or price after the order is confirmed, what do you do today? Correct the same invoice, or issue a new one?<br>Ref: A-66 \| Priority: Before go-live | |
| 5 | **Preparing a dispatch.** Who physically prepares goods for dispatch (store keeper, workshop supervisor, someone else)?<br>Ref: A-18 \| Priority: Before go-live | |
| 6 | **Returns and compensation.** In your questionnaire you wrote about goods being delivered again and the person being compensated. Please explain what happens, step by step.<br>Ref: A-19 \| Priority: Before go-live | |
| 7 | **Complaints after goods are signed for.** If a customer complains after signing the delivery note, how do you handle it (repair, replacement, refund)?<br>Ref: A-54 \| Priority: Before go-live | |

| # | Stock and materials | Your answer |
|---|---|---|
| **8** | **Taking material to production.** When fabric or accessories leave the store for an order, should the system reduce stock at once? Who must approve the issue of material? Do you use a paper issue slip for this today, and what was the last slip number?<br>Ref: A-65, A-68, A-79 \| Priority: Soon | |
| **9** | **Finished garments in stock.** The system now keeps ready-made garments by size, colour and location, and counts them when they are made, sold at the counter, transferred or adjusted. Is this how you keep them? Which garments, sizes and colours do you keep ready-made? How should returned garments be counted? How many of each should always be on the shelf, and is colour always needed?<br>Ref: A-55, A-73 \| Priority: Soon | |
| **10** | **Fabric calculator.** Please send how much fabric (in metres) each main garment needs by size and fabric width, plus your usual wastage. Please start with school uniforms. We only have one example (sleeved shirt, large, 60 inch width, 1.5 m plus 0.10 m). See also questions 34 to 38.<br>Ref: A-06, A-96, A-97 \| Priority: Before go-live | |
| **11** | **Your two locations.** Which two are they (for example shop and workshop)? Does stock move between them? The system can now transfer ready-made garments between the two locations. Does a transfer need separate approval? May a sales cashier sell from either location, or only their own? See also question 50.<br>Ref: A-13, A-75, A-82 \| Priority: Soon | |

| # | Money, documents and planning | Your answer |
|---|---|---|
| **12** | **Quotation or proforma?** Both look the same on your pads. When do you use a quotation and when do you use a proforma?<br>Ref: A-15 \| Priority: Soon | |
| **13** | **EFRIS.** Your statement shows a Fiscal Document Number that looks like a URA EFRIS number. Do you issue VAT invoices through EFRIS? Do you want the system to connect to it later?<br>Ref: A-01 \| Priority: Before go-live | |
| **14** | **One payment for several invoices.** Do customers sometimes pay one amount for several invoices? Should that be one receipt?<br>Ref: A-43 \| Priority: Before go-live | |
| **15** | **Cheques.** Do you accept cheques? When a cheque has not cleared or bounces, what do you do with the invoice and the customer balance?<br>Ref: A-44 \| Priority: Before go-live | |
| **16** | **Statements of account.** Your sample statement has no number. Do you want statements numbered?<br>Ref: A-48 \| Priority: Later | |
| **17** | **Wages.** Which staff are paid monthly and which per piece? Are NSSF and PAYE deducted? Please send per-piece rates by garment and task. See also questions 29 to 33.<br>Ref: A-12 \| Priority: Before go-live | |
| **18** | **Order volume.** About how many orders do you handle in a normal week, and in your busiest season?<br>Ref: A-20 \| Priority: Later | |

| # | Finished goods and counter sales | Your answer |
|---|---|---|
| 19 | NEW **Making garments for stock.** Sometimes you may make garments for the shop shelf instead of for a customer. Who decides what to make and how many, and who must approve it before cutting starts?<br>Ref: A-74 \| Priority: Soon | |
| 20 | NEW **Receipts for counter sales.** When a walk-in customer buys ready-made garments, do you give an ordinary numbered receipt (continuing from 2073)? Do these sales need an EFRIS or other fiscal invoice, or the customer's name?<br>Ref: A-76 \| Priority: Before go-live | |
| 21 | NEW **Delivering an order from stock.** When an order is delivered, does it ever come from ready-made stock? If yes, should the delivery lines show the exact size and colour so that stock goes down correctly?<br>Ref: A-55, A-78 \| Priority: Soon | |
| 22 | NEW **Fabric sold over the counter.** Do you sell fabric by the metre to walk-in customers? If yes, at what price, and who may sell it?<br>Ref: A-80 \| Priority: Later | |

| # | Expenses, payment vouchers and the cash book | Your answer |
|---|---|---|
| 23 | NEW **Payment vouchers.** Do you use a paper payment voucher today? If yes, what was the last voucher number, so the system can continue from it? The system starts at voucher 1 and gives a number only when you approve an expense. Please send a copy of one voucher.<br>Ref: A-83 \| Priority: Soon | |
| 24 | NEW **Approving and paying an expense.** When you approve an expense, is the money paid at that same moment, or later? Today the system treats approval and payment as one step. Should it record them as two separate steps?<br>Ref: A-83 \| Priority: Soon | |
| 25 | NEW **Mobile Money and cheques in the cash book.** Today the system counts cash, Mobile Money and cheque receipts together in the cash column, and bank receipts in the bank column. Do you keep Mobile Money and cheques as separate accounts? Should a cheque count as money received only after it clears?<br>Ref: A-85, A-44 \| Priority: Before go-live | |

| # | Opening balances and reports | Your answer |
|---|---|---|
| 26 | NEW **Opening cash and bank balances.** What are your verified balances on 01/01/2027, by account (cash in hand, each bank account, Mobile Money)? Until we have them, the monthly statement shows money in and out only and marks the opening and closing balance as pending.<br>Ref: A-88 \| Priority: Before go-live | |
| 27 | NEW **Garment category on invoices.** Invoice lines are free text, so sales reports cannot always tell the garment type. Should staff pick a garment category on every invoice line, or do you only need totals? Until you decide, these sales show as Unclassified.<br>Ref: A-89 \| Priority: Soon | |
| 28 | NEW **Your 2026 figures.** Do you want your 2026 sales, receipts and expenses loaded as history, or should your books start fresh on 01/01/2027? Year-to-date figures start on 01/01/2027 either way.<br>Ref: A-90 \| Priority: Before go-live | |

| # | Employees and wages | Your answer |
|---|---|---|
| 29 | NEW **Who is in the wage register.** Should the Store Keeper and Marketing Manager be in the wage register? If someone joins or leaves in the middle of a month, should they get the full month's salary (as the system does now) or a part of it by days worked?<br>Ref: A-91 \| Priority: Before go-live | |
| 30 | NEW **Piece rates and checking.** What are the approved piece rates by garment and task (for example cutting, sewing, finishing)? Who checks that the garment recorded for each piece is correct before it is paid? The rates now in the system are only examples.<br>Ref: A-92, A-12 \| Priority: Before go-live | |
| 31 | NEW **Several workers on one item.** Can several employees record pieces on the same order item (for example a cutter, a tailor and a finisher)? Which task completes a piece for pay? Should the system warn when more pieces are recorded than were ordered?<br>Ref: A-93 \| Priority: Soon | |
| 32 | NEW **Absence, lateness and rework.** Should absence, lateness, leave, rework or allowances change anyone's pay? Today they are recorded for information only and pay is the plain monthly salary or pieces times rate.<br>Ref: A-94 \| Priority: Before go-live | |
| 33 | NEW **Paying wages.** Who should close (finalise) the monthly pay: Owner, General Manager or Accountant? If a mistake is found after it is closed, how should it be corrected? Are wages paid from cash or from the bank?<br>Ref: A-95 \| Priority: Before go-live | |

| # | Fabric calculator and pricing | Your answer |
|---|---|---|
| 34 | NEW **Fabric widths.** Which fabric widths do you buy (for example 44, 58 or 60 inch)? Compared with 60 inch cloth, how many more or fewer metres does one garment need on each other width? The system now shows 44 inch as +0.30 m and 58 inch as +0.05 m per piece, only as examples.<br>Ref: A-96 \| Priority: Soon | |
| 35 | NEW **Metres for each garment.** For each school-uniform garment and size, how many metres of 60 inch fabric are needed (shirt, trouser, skirt, sweater and others)? What wastage do you add for each design? Which style options add fabric (long sleeves, pleats, lining, extra panels), and how many metres each? Only the large sleeved shirt (1.5 m plus 0.10 m) is yours today; everything else is an example.<br>Ref: A-97, A-06 \| Priority: Before go-live | |
| 36 | NEW **Suggested selling price.** What markup percentage do you add to the fabric cost? Should it be the same for every garment? Should labour, thread, buttons or other costs be included in the price? The system shows 30% as an example only, and rounds to whole shillings.<br>Ref: A-98 \| Priority: Before go-live | |
| 37 | NEW **Saving a calculation.** Should a saved calculation later be attached to a customer, an order or a quotation, or is it only a private note for you? Today it is a private note with no number.<br>Ref: A-99 \| Priority: Later | |
| 38 | NEW **Checking fabric in stock.** When the calculator checks whether you have enough fabric, should it count the fabric in both locations together, or only one location? Should anyone besides you use the calculator?<br>Ref: A-100 \| Priority: Soon | |

| # | Messages, posters and password reset | Your answer |
|---|---|---|
| **39** | NEW **Approving message wording.** The Marketing Manager can change the wording of message templates, but the change only counts once the Owner or General Manager approves it. Sales staff can use only approved templates. Should this approval be a recorded step (who approved, and when), or is a quick check enough? Who should approve?<br>Ref: A-102 \| Priority: Before go-live | |
| **40** | NEW **How often a customer is contacted.** At the moment a customer receives at most one message in 7 days, counting payment reminders, promotions and other bulk messages together. Customers contacted in the last 7 days, customers without a phone or email, and inactive customers are skipped and listed with the reason. Is 7 days right? Should promotions use a different gap from payment reminders?<br>Ref: A-103, A-46 \| Priority: Before go-live | |
| **41** | NEW **Who may send and edit messages.** Now: the Owner and General Manager can send to one customer or to many; the Marketing Manager can write and edit templates and posters but cannot send to many; Sales can send one approved message to one customer and see only their own messages; the Accountant can edit the payment reminder wording and read the message log but cannot write new messages. Is this right? May the Marketing Manager see or use payment reminders?<br>Ref: A-104 \| Priority: Soon | |
| **42** | NEW **Prices on price-list posters.** Today the prices on a poster are typed by hand and are not checked against your price list. Should poster prices come from your product price list instead, so they cannot be different? Who may publish a price-list poster?<br>Ref: A-105 \| Priority: Later | |
| **43** | NEW **Forgotten passwords.** When someone clicks "Forgot password", the system records the request and shows a neutral message; nobody is told yet and no password is changed. Who should be told (Owner, General Manager), and how: SMS, email or WhatsApp? Who should reset the password, and how should the person prove who they are? The system accepts one request per name per minute; is that enough?<br>Ref: A-106, A-107 \| Priority: Before go-live | |

| # | Campaigns, lead sources and sales targets | Your answer |
|---|---|---|
| **44** | NEW **Who sees and manages campaigns.** Now: the Marketing Manager creates and edits marketing campaigns; the Owner and General Manager can only view them; Sales and the Accountant cannot open them. A campaign may be linked to order-ready, promotion, thank-you and new-design messages and to saved posters, but never to payment reminders or supplier notices. Is this right? Should Sales or the Accountant see campaigns, with or without budgets?<br>Ref: A-110, A-114 \| Priority: Soon | |
| **45** | NEW **Money seen by the Marketing Manager.** The Marketing Manager can see campaign budgets and the total amount invoiced to customers from each lead source (for example social media or referral), but no payments, debtors or expenses. Should the Marketing Manager see these amounts, only budgets, or no money at all?<br>Ref: A-110 \| Priority: Before go-live | |

| # | Campaigns, lead sources and sales targets | Your answer |
|---|---|---|
| **46** | NEW **Campaign results.** A campaign has a planned budget, and the leads, orders and sales results are typed in by hand. Real spending is recorded as an ordinary expense. Should results later be matched automatically to orders and invoices?<br>Ref: A-108 \| Priority: Later | |
| **47** | NEW **Monthly sales targets.** Is a target set per salesperson per month, and who sets it (Owner, General Manager)? A person's sales are the invoices they issued that month, not cancelled, so counter sales and receipts do not count. A month with no sales shows Not started; below target shows In progress and then Missed at month end; at or above target shows Target met. Is this how you measure? May a target be zero, and should a salesperson who has left still appear in the team summary?<br>Ref: A-109, A-112 \| Priority: Soon | |
| **48** | NEW **Lead source report.** The report counts customers by the month they joined and shows what those customers were invoiced in the same period. Do you rather want the total ever invoiced to customers who joined in that period?<br>Ref: A-111 \| Priority: Later | |
| **49** | NEW **Best customers and best-selling items.** Best customers are ranked by invoice totals including VAT. Best-selling items are ranked before discount and VAT, and free-text invoice lines are grouped by description until garment categories are chosen (question 27). Should discount and VAT be included in the item ranking?<br>Ref: A-113, A-89 \| Priority: Later | |

| # | Branches and locations | Your answer |
|---|---|---|
| **50** | NEW **Your two branches.** Please name them and say what each one does (for example a shop and a workshop, or two shops). For each branch, tell us: does it have its own cash, bank and Mobile Money accounts? Its own staff and its own salesperson targets? Do you want separate figures for each branch (sales, money in, expenses, debtors and the monthly statement) as well as the combined total? Today the system keeps stock, transfers and counter sales by branch, but invoices, receipts, expenses and the cash book are one shared set of books.<br>Ref: A-13, A-82, A-100 \| Priority: Before go-live | |

## Part 2: Rules we have set up. Please confirm

Each rule below is how the system works now. Tick Yes if it matches your business, or No and write the change.

| # | Invoices, receipts and documents | Your answer |
|---|---|---|
| **1** | An invoice is issued for the full amount when an order is confirmed. The customer pays 50% deposit first and 50% on delivery. Credit customers get 30 days to pay.<br>Ref: A-14 | [ ] Yes [ ] No<br>Change: _____ |
| **2** | Document numbers continue from the last one used, with no prefix. A number is given only when a document is issued; a draft can be thrown away without using a number.<br>Ref: A-16, A-36 | [ ] Yes [ ] No<br>Change: _____ |
| **3** | Every printed document uses your newer letterhead (four phone numbers) and the sending email genuinetextiles1@gmail.com.<br>Ref: A-17 | [ ] Yes [ ] No<br>Change: _____ |

| # | Invoices, receipts and documents | Your answer |
|---|---|---|
| **4** | One receipt is for one invoice, and a customer cannot pay more than the invoice balance. Only the Owner or General Manager can cancel (void) a receipt, and must give a reason.<br>Ref: A-41, A-42 | [ ] Yes [ ] No<br>Change: _____ |
| **5** | An invoice that already has receipts cannot be cancelled until those receipts are handled. The fiscal document number can be typed in after the invoice is issued.<br>Ref: A-39 | [ ] Yes [ ] No<br>Change: _____ |
| **6** | Sales staff cannot issue an invoice above a customer's credit limit. The Owner or General Manager can, with a written reason.<br>Ref: A-38 | [ ] Yes [ ] No<br>Change: _____ |

| # | Orders and delivery | Your answer |
|---|---|---|
| **7** | An order cannot move past 'Received' until 50% of the invoice is paid. The Owner or General Manager can allow it with a reason.<br>Ref: A-60 | [ ] Yes [ ] No<br>Change: _____ |
| **8** | An order becomes 'Delivered' automatically once every item on the invoice has been delivered. The workshop supervisor sets 'Ready for delivery' by hand, and the system offers to send the customer an SMS.<br>Ref: A-61, A-63 | [ ] Yes [ ] No<br>Change: _____ |
| **9** | A rush order is marked with a badge and shown first. There is no extra charge.<br>Ref: A-23 | [ ] Yes [ ] No<br>Change: _____ |
| **10** | Measurements and size lists are saved on that order only. They are not kept on the customer's profile.<br>Ref: A-05 | [ ] Yes [ ] No<br>Change: _____ |
| **11** | Dispatch is cleared automatically when the invoice is paid, or when a credit customer is within their limit and has no overdue debt. Anything else needs Owner or General Manager approval with a reason.<br>Ref: A-50 | [ ] Yes [ ] No<br>Change: _____ |
| **12** | Delivery is confirmed with the receiver's name, the date and the quantities received. Anything returned needs a reason. A confirmed delivery note cannot be cancelled.<br>Ref: A-51 | [ ] Yes [ ] No<br>Change: _____ |

| # | Stock | Your answer |
|---|---|---|
| **13** | Fabric is stored in metres and can be shown as rolls plus loose metres. The fabric width is recorded for every fabric.<br>Ref: A-03, A-25, A-26 | [ ] Yes [ ] No<br>Change: _____ |
| **14** | A low-stock warning appears at 25% of an item's 'full stock level'. Until you tell us otherwise, the full level is the biggest quantity ever received in one delivery.<br>Ref: A-04 | [ ] Yes [ ] No<br>Change: _____ |
| **15** | Goods received are added to stock as soon as they are saved. A mistake is corrected by the Owner cancelling and re-entering the record.<br>Ref: A-31 | [ ] Yes [ ] No<br>Change: _____ |

| # | Stock | Your answer |
|---|---|---|
| **16** | A stock adjustment is requested by the General Manager or Store Keeper and approved only by the Owner.<br>Ref: A-33 | [ ] Yes [ ] No<br>Change: _____ |

| # | Debtors and accounts | Your answer |
|---|---|---|
| **17** | A debtor is any customer who owes money. Ageing groups debts by how old the oldest unpaid invoice is.<br>Ref: A-45 | [ ] Yes [ ] No<br>Change: _____ |
| **18** | A payment promise counts as kept when the customer's receipts after the reminder reach the promised amount. Otherwise it is missed after its date.<br>Ref: A-45 | [ ] Yes [ ] No<br>Change: _____ |
| **19** | A customer gets at most one SMS or email reminder every 7 days. Only the General Manager can override this, with a reason.<br>Ref: A-46, A-47 | [ ] Yes [ ] No<br>Change: _____ |
| **20** | The books are a simple cash-book style ledger feeding monthly statements. Figures start from opening balances on 01/01/2027, and year-to-date totals start from go-live. An accountant should check the statement formats.<br>Ref: A-10, A-11 | [ ] Yes [ ] No<br>Change: _____ |

| # | Roles and what people can see | Your answer |
|---|---|---|
| **21** | 'Manager' and 'General Manager' are the same role. The Owner is the final approver.<br>Ref: A-07 | [ ] Yes [ ] No<br>Change: _____ |
| **22** | The General Manager approves discounts. The Owner approves deletions, stock adjustments, payments and expenditures.<br>Ref: A-08 | [ ] Yes [ ] No<br>Change: _____ |
| **23** | Only the Owner, General Manager and Accountant can see material costs and profit. The Store Keeper and Workshop Supervisor never see prices, totals, costs or payments on any screen or printout.<br>Ref: A-09, A-29, A-52, A-64 | [ ] Yes [ ] No<br>Change: _____ |

| # | Finished goods and counter sales | Your answer |
|---|---|---|
| **24** | **NEW** Ready-made garments are kept by size, colour and location. Stock goes up through opening stock, goods made in production, and transfers between your two locations. Opening stock is entered by the Owner after a physical count. A transfer between your two locations needs no separate approval but cannot take stock below zero. Any manual correction is approved by the Owner.<br>Ref: A-73 to A-75, A-81 | [ ] Yes [ ] No<br>Change: _____ |
| **25** | **NEW** A counter sale can have several items. VAT is added, and a discount needs approval as it does on invoices. The system shows the change due and prints an A4 receipt that continues the normal receipt numbers. A cashier sells from their own location.<br>Ref: A-76, A-82 | [ ] Yes [ ] No<br>Change: _____ |

| # | Finished goods and counter sales | Your answer |
|---|---|---|
| **26** | NEW A counter sale is cancelled (voided) by asking with a reason, and the Owner approves. The garments go back into stock and the receipt is removed from the day's takings. If the General Manager should also approve, write it in the box.<br>Ref: A-76, A-77 | [ ] Yes [ ] No<br>Change: _____ |

| # | Expenses, cash book and dashboard | Your answer |
|---|---|---|
| **27** | NEW An expense is first saved as a draft, and a draft can be thrown away without using a number. Once sent, it waits for the Owner, who approves it or rejects it with a reason. Approval gives it the next payment voucher number. Cancelling an approved expense needs a reason, and the voucher keeps its number and is marked VOID.<br>Ref: A-83, A-84 | [ ] Yes [ ] No<br>Change: _____ |
| **28** | NEW Expenses use these categories: rent, electricity, transport, salaries, materials, repairs, airtime, marketing, lunch, drinking water, allowances. Small thread and accessory purchases go under Materials. An expense can be dated in the past but not in the future, and a photo of the receipt can be attached. If a category is missing, write it in the box.<br>Ref: A-86 | [ ] Yes [ ] No<br>Change: _____ |
| **29** | NEW Approved expenses and issued receipts appear in the cash book automatically. A cancelled expense or voided receipt is never deleted: a dated reversing entry is added so the history stays visible.<br>Ref: A-85 | [ ] Yes [ ] No<br>Change: _____ |
| **30** | NEW The dashboard is the first page after login. Each person sees only the figures for their role, and each figure links to the page it comes from. Money in counts each receipt once, including counter sales. Money out counts approved expenses less cancellations. The Store Keeper and Workshop Supervisor see no money figures.<br>Ref: A-87, A-09, A-52 | [ ] Yes [ ] No<br>Change: _____ |

| # | Reports and monthly statement | Your answer |
|---|---|---|
| **31** | NEW The monthly statement is a simple cash-book style summary of money in, money out and movement. Invoices billed are shown separately and never added to money received. The opening and closing balances show as pending until you give us your 01/01/2027 balances.<br>Ref: A-10, A-11, A-88 | [ ] Yes [ ] No<br>Change: _____ |
| **32** | NEW Sales, debtors and statement reports can be seen only by the Owner, General Manager and Accountant. The Store Keeper and Workshop Supervisor can see only the stock quantity report, with no prices, costs or totals.<br>Ref: A-09, A-52, A-64 | [ ] Yes [ ] No<br>Change: _____ |

| # | Employees and wages | Your answer |
|---|---|---|
| **33** | NEW Pay is gross pay only: a fixed monthly salary, or pieces completed times the rate for that garment and task. No NSSF or PAYE is deducted yet, and absence, lateness and rework do not change pay.<br>Ref: A-12, A-94 | [ ] Yes [ ] No<br>Change: _____ |

| # | Employees and wages | Your answer |
|---|---|---|
| **34** | NEW Closing a month creates one pending Salaries expense. Only the Owner approves it, and approval gives it a voucher number and posts the money out. Once a month is closed, its attendance and production entries are locked.<br>Ref: A-95, A-83 | [ ] Yes [ ] No<br>Change: _____ |
| **35** | NEW Only the Owner, General Manager and Accountant can see pay rates and pay. The Workshop Supervisor records attendance and the production log but never sees rates or pay.<br>Ref: A-12, A-09 | [ ] Yes [ ] No<br>Change: _____ |

| # | Fabric calculator | Your answer |
|---|---|---|
| **36** | NEW Only the Owner can use the fabric calculator. It works from tables you can edit, shows the metres for each step, the fabric cost and a suggested price, and prints as an A4 report. It only checks the fabric in stock: it never reserves or removes stock, and a saved calculation is a note with no number and no link to any quotation or order.<br>Ref: A-99, A-100, A-09 | [ ] Yes [ ] No<br>Change: _____ |

## Part 3: Information to send us

- A clearer copy of your logo, and the fabric formulas and per-piece pay rates asked for in Part 1.
- A list of your fabrics, threads and accessories, with the unit for each and the quantity you hold today.
- NEW The fabric widths you buy, the metres each school-uniform garment needs by size and width, your wastage per design, the style options that add fabric, and the markup you use for prices.
- NEW A list of the ready-made garments you keep in stock: item, size, colour, quantity and which location holds them.
- NEW Your approved wording for messages (order ready, payment reminder, promotion, thank-you, new designs), your sender phone number or WhatsApp number, and any pictures or designs you want on posters.
- NEW The monthly sales target you want for each salesperson, and the list of lead sources you want to track (for example social media, WhatsApp, referral, exhibition).
- NEW A list of your staff: name, role, pay type (monthly or per piece), date joined, and the monthly salary or the piece rates.
- Your customer list: names, phone numbers, and which customers get credit (with their limits).
- Amounts customers owe you on 01/01/2027, and your cash, bank and Mobile Money balances on that date, by account.
- NEW A copy of one of your paper payment vouchers, if you use them.
- Your last four months of invoices, receipts and delivery notes, so we can check dates, payment methods and which quotation or proforma each invoice came from.
- The names of the four people who will be trained, and the role each will have.

Thank you. Your answers let us set the system up exactly as your workshop runs.
